Fox Valley Models is proud to announce the 1935 Milwaukee Road Hiawatha Project. This classic train will be faithfully recreated in HO and N Scales to celebrate the Train's 75th Anniversary. When introduced, the train was lead by the sleek and powerful Class A 4-4-2. Following was America's first Tap - Cafe car, three Coaches, a Parlor car and Milwaukee's unique Beaver Tail Observation. All will be available in State of the Art Injection molding with numerous add on details. The locomotive will include a smooth and powerful DCC ready drive. Cars will feature metal wheelsets, wire grab irons, knuckle couplers and interiors. The first set will include Locomotive #1 in it's original paint scheme, the Tap-Cafe car, Coaches #4419, 4428, 4439, Parlor Car Minnewawa and Observation Wagonah. Two additional coaches will also be available. These initial sets will be limited, so order yours today.
